

2016 CONTENT SPONSORSHIP OPPORTUNITIES

Connect with an exclusive communications technology audience.

The IEEE COMSOC Tech Focus site provides free access to valuable, unique content, including the latest complete articles and conference papers from the IEEE Xplore Digital Library on a specific topic or technology.

- 300 leads guaranteed
- Sponsorship banner links visitors back to your site
- Promoted to the best selects from our universe of 150K opt-in engineers

You select the topic, we provide the content.

Choose the topic that is most relevant to your business from a range of the latest focus areas trending in the technology and engineering fields. Then, get exclusive sponsorship of four in-depth, technical papers produced by our respected experts. These articles are offered free to our targeted design engineer audience, who would otherwise need to pay for access.

Our target is your site.

Gain significant exposure on your Tech Focus landing page with Web banners that drive the audience to your site for product and design solutions.

Drive viewers to your sponsored content.

We promote Tech Focus — and your sponsorship — through special email messages, announcements in our newsletter and on the IEEE Communications home page.

Become an IEEE ComSoc Tech Focus sponsor today!
